

# NORDEN AQUAVIT

is crafted in an alembic copper pot-still using age-old traditional methods. Made with **100% ORGANIC** mid-west grain spirits and pure Michigan water as the base, our spirit comes alive from the 10 botanicals found in each bottle. Whether foraged locally, or sourced from the best purveyors around the world, we chose each one for its outstanding flavor and aromatic attributes. Every botanical is checked, weighed, and prepped by hand before a slow and exacting distillation. Each one lends an important piece to the equation, so quality is of the utmost importance and will never be sacrificed—no matter the cost.

## Tasting Notes and Botanicals:

A perfectly balanced, modern Aquavit. The main flavor-driver is caraway. After that, a break with tradition begins as bright and faintly sweet citrus notes loom large. Fresh fruit and herbal aromas are an enticing draw while floral and earthy undertones hold your attention throughout. Bottled at 45% alc./vol. to allow the character of each ingredient to stand out when mixed. Over-all, a harmonious flavor with a clean and refreshing finish. Perfect on its own in the Scandinavian tradition or in cocktails.

**Caraway**-Cooling spice and Spearmint

**Clementine and Coriander**-Bright citrus bursts

**Angelica, Orris, and Juniper**-Floral undertones

**Clary sage, Sumac**-Fresh pear/ tropical fruit aroma

**Dill, Anise**-Sweet herbal subtleties
